BDC² Index

Date 30st Sep 2026

Index initial level	1,000
Index current level	1,343.61
YoY %	5.31%
MoM%	0.71%

Fund Proposal

Fund Domicile	United Kingdom
Base Currency	GBP
Average distribution Yield	Quarterly
Asset Types	Non-traded US BDCs

Investment objective

The BDC² Index tracks the total return of the five largest US non-traded business development companies (BDCs), equal-weighted and rebuilt monthly from SEC filings. It is designed as an independent benchmark for semi-liquid US private credit, and as the reference for a proposed product giving UK and EU investors diversified access to the asset class.

Fund Performance

9.0% Avg. underlying distribution yield

6.0% senior coupon

1.53x senior coupon cover

1,343.61 Index level as of Sep 2026

34.36% Cumulative total return

Returns	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Year
